Kern COG will be coordinating an update to the county-wide aerial imagery for 2014. Opportunities for higher resolution imagery through partnering are available.

Kern COG will be acquiring one foot resolution, color imagery for Kern County in early 2014. While the county-wide imagery will be publically available, there is an opportunity for other agencies to partner with Kern COG to acquire imagery in additional areas or at a higher resolution. Potential partnerships will need to be established before the release of the RFP in September/October 2013.
